Guidelines for Creating SoaringBeds

Children and teenagers in the hospital tend to get tired of having to be in the bed all day, so use your imagination to transform a hospital bed into a SoaringBed. Make something creative, funny,

tahnadt innovative that no one has ever seen before. **This means the bed that you create will be special and different than everyone else's!** Your SoaringBed drawing will be shared with hospitalized children in your community to brighten up their room and inspire them to smile.

Here's How to Get Started:

1. Think of the theme for your bed and all the special things the bed can do. You can invent a rocket ship bed, a mountain climbing bed, or a marshmallow bed. There are so many great ideas for innovative beds that you can create.
2. Use the Soaringwords Border to draw a picture of your special bed and then write what about the unique, fantastic, or funny things your bed can do.
3. Write the name of your SoaringBed on the top of the page.
4. Write your name and country on the bottom of your page.

Pointers:

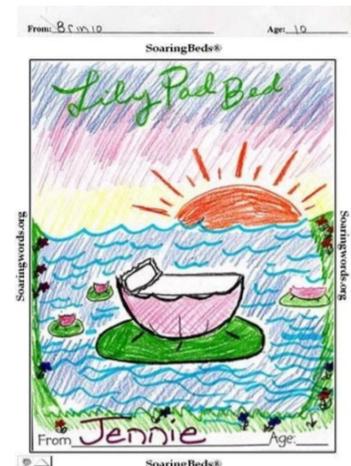

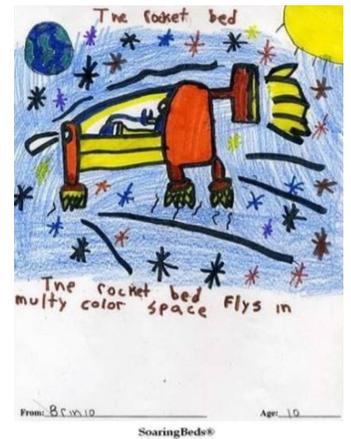

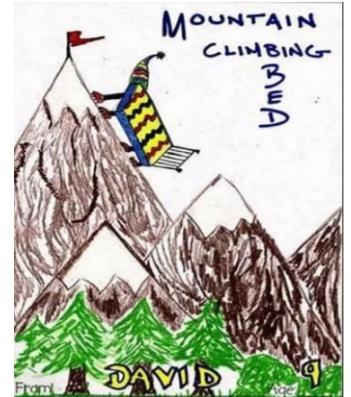

Do make your picture really big, bright, and colorful. Fill the entire page with your picture and message.

Do make sure your words are legible and neat, so that they can be easily read.

Don't include illness or death in your SoaringBed Drawing. Don't write "Get Well Soon" or "Feel Better" because these messages can actually make an ill child feel sad.

After You Decorate:

Take a photo of your special SoaringBed message and email it to heal@soaringwords.org. Soaringwords will share your SoaringBed with a hospitalized child.
